Information about content

AkzoNobel Adhesives AB are pleased to inform, to the best of our current knowledge, that none of the substances listed below have been intentionally added $\geq 0.1\%$ to the products:
GripPro™ Plus Adhesive A011, GripPro™ Nature Adhesive A011-B50, Hardener H011.

Substance	CAS
Boric acid	11113-50-1, 10043-35-3
Diboron trioxide	1303-86-2
Tetraboron disodium heptaoxide	12267-73-1
Disodium tetraborate	12179-04-3, 1303-96-4, 1330-43-4

Please be advised that AkzoNobel has relied upon received supplier documentation on any purchased raw material composition. We work with our suppliers to provide full information however we do not routinely conduct testing of incoming raw materials therefore some naturally occurring raw materials may contain trace amounts of impurities. We cannot be held accountable the unfortunate event that information provided to us by our suppliers is later found to be incorrect.
